

## NEWS OF THE DAY.

"To show the very age and body of the Times."

In the Senate, yesterday, Mr. Wilson introduced a resolution to prohibit the sale of spirituous liquors in the Capitol building, saying that during the last few years employees of the Capitol had been taxed to keep members of Congress in whiskey. Mr. Clark spoke of disgraceful scenes about the building lately, and said he had known little boys employed as pages to be sent home drunk. Mr. McDougall announced himself in favor of wine, whiskey and war. The resolution was passed, Messrs. McDougall and Davis only voting against it.

A rush for land for actual settlement is now taking place. Reports received at the General Land Office show that over 49,700 acres were entered at the District Land Office of Booneville, Mo., the greater portion for homestead actual settlement, a part cash sales, amounting to \$10,462, and the residue bounty land locations. At La Crosse office, Wisconsin, 7,436 acres were taken up, and at Topeka, Kansas, 5,000 acres were taken up, making in all 65,162 acres.

Messrs. Bowles, Milligan and Horsey, who were convicted of treason by a military commission in Indiana, and sentenced to death, but whose sentence was subsequently commuted to imprisonment for life, have been set at liberty by President Johnson, under the recent decision of the Supreme Court. Milligan is the Democratic candidate for United States Senator for Indiana, and was released on *habeas corpus* before the order for his discharge arrived.

The New York stock market is weak. The apprehensions of cholera are saddling with the chief responsibility for the change in tone. The Commercial Advertiser says Governments are quiet. Five-twenties are depressed under a report of the return of bonds from London, and an apprehension that the threatening complications between Austria and Prussia may force home a considerable amount.

Two of the Health Commissioners of New York, Drs. Stone and Parker, testified on Tuesday last before the Board of Health, of that city, with respect to the imminence of the danger from cholera. Dr. Stone reminded the Board of the fact that it had always heretofore been the case that the cholera made its appearance in this country one year after it had scourged the cities of Europe.

Judge Wythe, of Gunterville, Alabama, remarks that the condition of the people in his neighborhood is pitiable in the extreme. Three cases of actual starvation have already occurred, and hundreds must perish if relief is not immediately afforded.

Captain R. B. Winder, who has been imprisoned at the old Capitol and at Richmond, Va., for quite a number of months, on charges connected with the Andersonville prisoners, was released from custody yesterday by orders from Washington.

The railroad passenger car, manufactured in Alexandria by the military railroad authorities, for the exclusive use of the late President of the U. S., at a cost of over \$20,000, was sold yesterday, for \$6,850; Ward H. Lamont, the purchaser.

Gen. Rucker, formerly of the Confederate States army, was arrested recently at Memphis, Tennessee, on the charge of treason. General Rucker was held to bail in ten thousand dollars to appear at the next term of court.

The newly elected Mayor of Richmond, Hon. Joseph Mayo, inaugurated his term on yesterday with a full docket of representatives of all colors and ages. There was also an unusual crowd of spectators present.

Gen. Miles commanding at Fortress Monroe, has issued an order, declaring quarantine on all vessels entering the Chesapeake Bay from the West India Islands, or from any port infected with the cholera.

The Military Commission which has been in session in Richmond for some months past, adjourned on Saturday, sine die. All cases not already disposed of by them have been turned over to the civil authorities.

One fourth of the persons recently appointed to take charge of post offices in North Carolina and Virginia are said to be women, and some that have been appointed have been unable to take the oath.

Dr. Irving of the Cooper River, South Carolina, writes very discouragingly of the coming rice crop. He thinks the production of that region will be about the same as last year.

Mr. J. H. Gilmer, of Richmond, is said to be in Washington, endeavoring to procure the release of Dick Turner, who was the keeper of the Libby prison during the late war.

The steamer Golden City sailed from San Francisco on the 10th inst., for Panama, with \$874,642 in treasure, of which \$809,000 was for New York.

A treaty signed by the Bois Fort Chippewa Indians gives the U. S. the Vermilion Lake gold fields, and removes the Indians fifty miles further west.

Since 1st May last, 108,751 horses and 103,432 mules have been sold by the government, at quartermaster's sales, for the sum of \$14,621,022.

The Civil Rights Bill is the sixth in the history of the country, which the Presidential veto failed to arrest in its enactment into a law.

The civil rights bill has been filed at the State Department, and will be officially published as a law to-day.

At the "Serenade" given to the Indiana Delegation, the other night, in Washington, Mr. Orth declared, among other things, that it was the determination of Congress to continue in session till the violent purposes of the Radical party leaders are fully consummated.

"We have told the man in the White House," said the speaker, "that we will not go with him in treasonable acts. As an old Hoosier said to me the other day, we have him on the ground and are rolling over him." \* \* \*

"This Congress will not adjourn soon. Dog-days may come, hot weather may come, and the cholera may come, but we will not go till our work is completely done, and done in such a way as to leave no room for mischief when we are gone." These are very plain and remarkable declarations.

Mr. Sumner's bill for a revision and consolidation of the laws of the United States has passed the Senate, and will probably pass the House.

Edwin Forrest sailed yesterday from New York for San Francisco, in the steamer Costa Rica.

## THE FENIAN EXCITEMENT.

The Fenians are collecting in considerable numbers at Eastport, Maine. A Fenian vessel with howitzers and other arms was not permitted to leave the port by order of the officer of customs. Communication between St. John's, New Brunswick, and the Western towns, on the British side was destroyed by the Fenians on Monday night last. English warships are lying off Campo Bello, in Passamaquoddy Bay, and troops have been landed there who are engaged in throwing up defenses. The Toronto Globe says there is no longer any doubt that O'Mahoney is concentrating a Fenian force near the New Brunswick frontier. The Globe claims that the presence of this force on the border is clearly in violation of the neutrality laws of the United States, and that the authorities at Washington must speedily take action on the subject.

GENERAL GRANT'S CASE.—This morning, the Sergeant of the Second Precinct reports the case of Gen. U. S. Grant, arrested for fast driving, as settled by the General paying the fine. We are informed that when the policeman went to Army Head Quarters and laid his warrant on the table before the General, that officer looked at it, and turning to the servant of the law, remarked, "I suppose you take a pride in this?" The officer said:—"No, General. I only do it because it is my duty." The General pleasantly intimated that under martial law the tables might be turned, and the servant of the law replied that the General might do as he pleased but he had performed his duty, adding, "I also did my duty under you, General, at Vicksburg, and you did not find fault with me then." The General immediately acknowledged the service of the warrant, appeared before Justice Walter, and paid the fine.—*Wash. Star.*

FOREIGN NEWS.—By the arrival at Halifax of the steamship Asia, we have advices from Europe to the 1st instant. The news from Germany continues very warlike. General Boeckel has been appointed Commander-in-Chief of the Austrian army. A Vienna journal asserts that the Western Powers intend to present identical notes at Berlin deprecating war. It is also stated that Russia has entered into a formal treaty of alliance with Italy, and that considerable armaments are in course of preparation in the latter Kingdom. Orders have been issued at Berlin to put three divisions of infantry, the whole of the 6th army corps, and several other regiments on a war footing. Orders have also been given to prepare the Prussian war vessels in the port of Kiel for active service.

FENIANISM.—The Fenians of this District and Alexandria county have now nine circles of the Brotherhood and two circles of the Sisterhood, the last circle having been organized on Monday night, on English Hill. It is said that about seven thousand stand of arms have already been contributed by these circles, and a large amount of money invested in bonds of the U. S. Many robust young men are said to have started for the field of action, (if they can find it), and exciting times are shortly expected. The report that Head Centre Stephens will visit Washington is said to be "a confirmation," and it is stated by those who profess to know, that he will remain in New York only a day or two.—*Wash. Chronicle.*

Staunton Virginia says:—"We regret to learn that Anos Kirat, esq., was brutally murdered by a negro at his residence, near Shadwell Depot, Albemarle county, Va., last week. He left a large family to mourn his loss."

## GOLD.

NEW YORK, APRIL 12.—Gold, 126 1/2.

Can be sold together, or separately, each lot being twenty-four feet wide. Half the purchase money to be paid at time of sale, the balance in six months. ap 12-1f

1,200 SACKS G. A. SALT, to arrive per Schr. Prudence, which will be sold low from vessel. W. A. SMOOT, ap 13-1f No. 21, North Union st.

## TO CONTRACTORS AND OTHERS.

Proposals are invited until April 28th, inst., for the leasing for a term of years of the Alexandria Canal, including all of its real and other property. This canal extends from the city of Alexandria, Va., to the city of Georgetown, D. C., on the north bank of the Potomac, where it connects with the Chesapeake and Ohio Canal. The water is from thence conveyed across the Potomac in a wooden trough and superstructure, which is built on granite rock piers, and then by land into the Potomac at Alexandria. The following description of the piers of the aqueduct is from a report by the late M. C. Ewing, esq., Civil Engineer:—"An aqueduct is built against the Chesapeake and Ohio Canal at Georgetown. The Alexandria Canal commencing at this point is carried across the Potomac on an aqueduct 1000 feet long. This aqueduct was located by surveys made in 1831. Of the eight piers now built, four are in water from 35 to 40 feet deep, and 4 founded 25 to 35 feet below the surface. The abutments and piers were all built in coffer dams pumped out and dredged by steam machinery to the solid rock, on which they are erected in cement and trowel work from foundation. This laborious construction was the work of several years with a large force engaged night and day except during part of the winter months. The piers are carried up 30 feet above the river surface, and are therefore in height from 55 to 70 feet. They are about 70 feet long at base, and 12 to 24 feet thick at the water surface. They are of granite rock laid in cement, and having stood the floods and drifts for several years, (1846) are believed to be of imperishable material and workmanship." The cost of the aqueduct, \$575,381.43, including about \$30,000 for the wooden trough and superstructure. The other portion of the canal, embankments, culverts, locks, wharves, ferry at Georgetown, &c., cost over \$800,000. The Alexandria Canal may be properly called the terminus of the Chesapeake and Ohio Canal. There was transported of coal alone, over the Alexandria Canal in 1850, about 300,000 tons, and the coal trade has largely increased since, but owing to the war no coal has come over the Alexandria Canal, for the reason that the aqueduct has been used by the Government as a wagon road from Georgetown to Arlington. Parties contracting with the owners to place and keep the canal and aqueduct in order and repair, and to use the canal and aqueduct for the purposes for which it was originally constructed and no other unless by consent of all the contracting parties. For further information, such as obligations to be assumed, and conditions to be complied with, address, or apply in person to

HUGH LATHAM, Mayor of Alexandria, Va. [National Intelligence, Washington; Herald, New York; and Telegraph, Cumberland, Md., Stawson, and send bill.]
